COLUMBIAN BOYS TO ENTERTAIN

Gov. Frear Will Present Territorial Flag To Visitors

An elaborate program has been arranged by Theodore Richards and Mrs. Hendricks, president of the College Club of this city, for the benefit of the visiting Columbian boys who are due here by the Makura on February 1, from Australia.

The entertainment of the boys will be in the hands of a committee made up as follows: Theodore Richards, Mrs. Hendricks, W. D. Adams. These will appoint others to chaperon the boys and look after their comforts.

As soon as the ship arrives at her dock, the boys will march to the Opera House, where they will be received by the Mayor, after which they will go to their temporary homes. In the afternoon the Kamehameha students will give a special drill in the Oahu College grounds, when Governor Frear will present a Territorial flag to the visiting boys. The Columbian Boys will then play Oahu College at baseball.

In the evening the Columbian Boys led by their brass band of forty pieces, will parade the downtown streets and march in a body to the Opera House, where instrumental and vocal numbers will be rendered. W. D. Adams will have full charge of the program, which will include exhibitions of gymnastics, pyramid formations; two comedy farces of about twenty minutes duration each; two amateur boxing bouts, and an exhibition football game with two full teams on the stage. These will show the different styles of play employed by the University of California and Australian eleven when in the field.

This club was first started by Major Peixoto for the purpose of keeping city boys off the streets out of school hours and to give working boys a place to spend their evenings. Gymnasium training, military drill, outdoor athletics, instruction in basket making, wood carving, clay modeling, and all kinds of handicraft, musical and dramatic work, etc., and a fine brass band, were some of the attractions which has made the club popular with all city boys. The club members are the sons of American working people who join the club voluntarily.

At the time of the great disaster in San Francisco the club was comfortably housed with a membership of over 300 boys, but everything was lost in the great fire. A fresh start had to be made; the club was reestablished on a firmer basis than ever before and during the Australian trip two other contingents from the club have been touring the Pacific Coast.

A strong organization of the earlier members of the club have organized themselves as "The Pioneers," and to

these ex-members who have now grown to manhood the club owes much of the present success. Over 4000 city boys have grown up in the club and their devotion to it in after life is proof of the great work it has accomplished.

The band attraction of forty pieces will be one of the conspicuous features of the visitors. The club is twelve years old. The program at the Opera House will include coon songs by Edward Nelson, who is only 13 years of age, and is considered a prodigy. Sheridan Williams, Roy O'Connell, Charles Day, Robert Hayes, the sailor balladists, will sing a medley, "Songs of the Sea." Emil Hastings will give a singing and dancing act.

The football game will be played on the stage. The American game has been introduced by these boys in Australia and the boys are bringing home with them some Australian points. A return visit of a party of Australian boys for the sake of obtaining an insight into American ways will be made next year.

ECZEMA A GERM DISEASE

Myriads of Microscopic Animals In-
fest the Skin of the Sufferer.

When the skin of an eczema sufferer itches and burns in untold agony, do you know what is going on within the pores of that skin?

Myriads of microscopic animals are gnawing at the flesh, breaking down the fine cells and causing festers, thick scales and that terrible itch. The germs multiply faster than Nature can throw them off.

Now, there is only one way to get rid of these germs—they must be killed in their lodging places. Dousing the stomach or trying to cure the blood will not, of course, kill the germs, and that is why all the blood remedies fail in eczema; that is also why salves which do not penetrate can do no permanent good.

Ordinary oil of wintergreen properly compounded in liquid form will penetrate the pores of the skin and kill the eczema germs. If properly mixed with thymol, glycerine and other ingredients (as in D. D. D. Prescription) this wash will build up the tissue of the skin and promote its healthy growth, giving Nature a chance, while killing the germs faster than they can multiply.

The Honolulu Drug Co., Fort street, of this city, recommends D. D. D. Prescription, also D. D. D. Soap.

BIG DAMAGE SUIT

Andrew Bright, who was thrown off an electric street car by an automobile driven by Thomas Quinn, has instituted a damage suit for \$5000 against the chauffeur.

The affair happened on Hotel street several months ago, and Bright has been confined in the Queen's Hospital ever since. His hearing is said to be seriously impaired and his jaws will not work properly. E. C. Peters is Bright's attorney and the papers in the case were served this morning.
